

# Shaping the Digital Future

Peter Grüter  
Präsident asut  
Horw, 28. April 2016

# Von der Telefonie zur integralen Kommunikation

# Kondratieff Wellen

Theorie einer auf Basisinnovationen gestützten, zyklischen Wirtschaftsentwicklung

# Better before cheaper

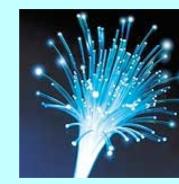

## 20th century economy

Dominated by scarcity, its guiding principle was „doing more with less“.

## 21st century economy

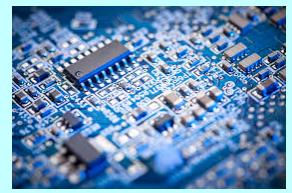

Dominated by abundance, its guiding principle is „doing better“.

# Drei Megatrends

## Integration

IT, Communication and Network Technologies merge

Digital Industries

Virtualization & Cloud

## Industrialisation

IT & OT meet

Software Defined Networking

Distributed Computing

The planet as a system

Humans & Things communicate

## Innovation

Everything communicates

Autonomous cars

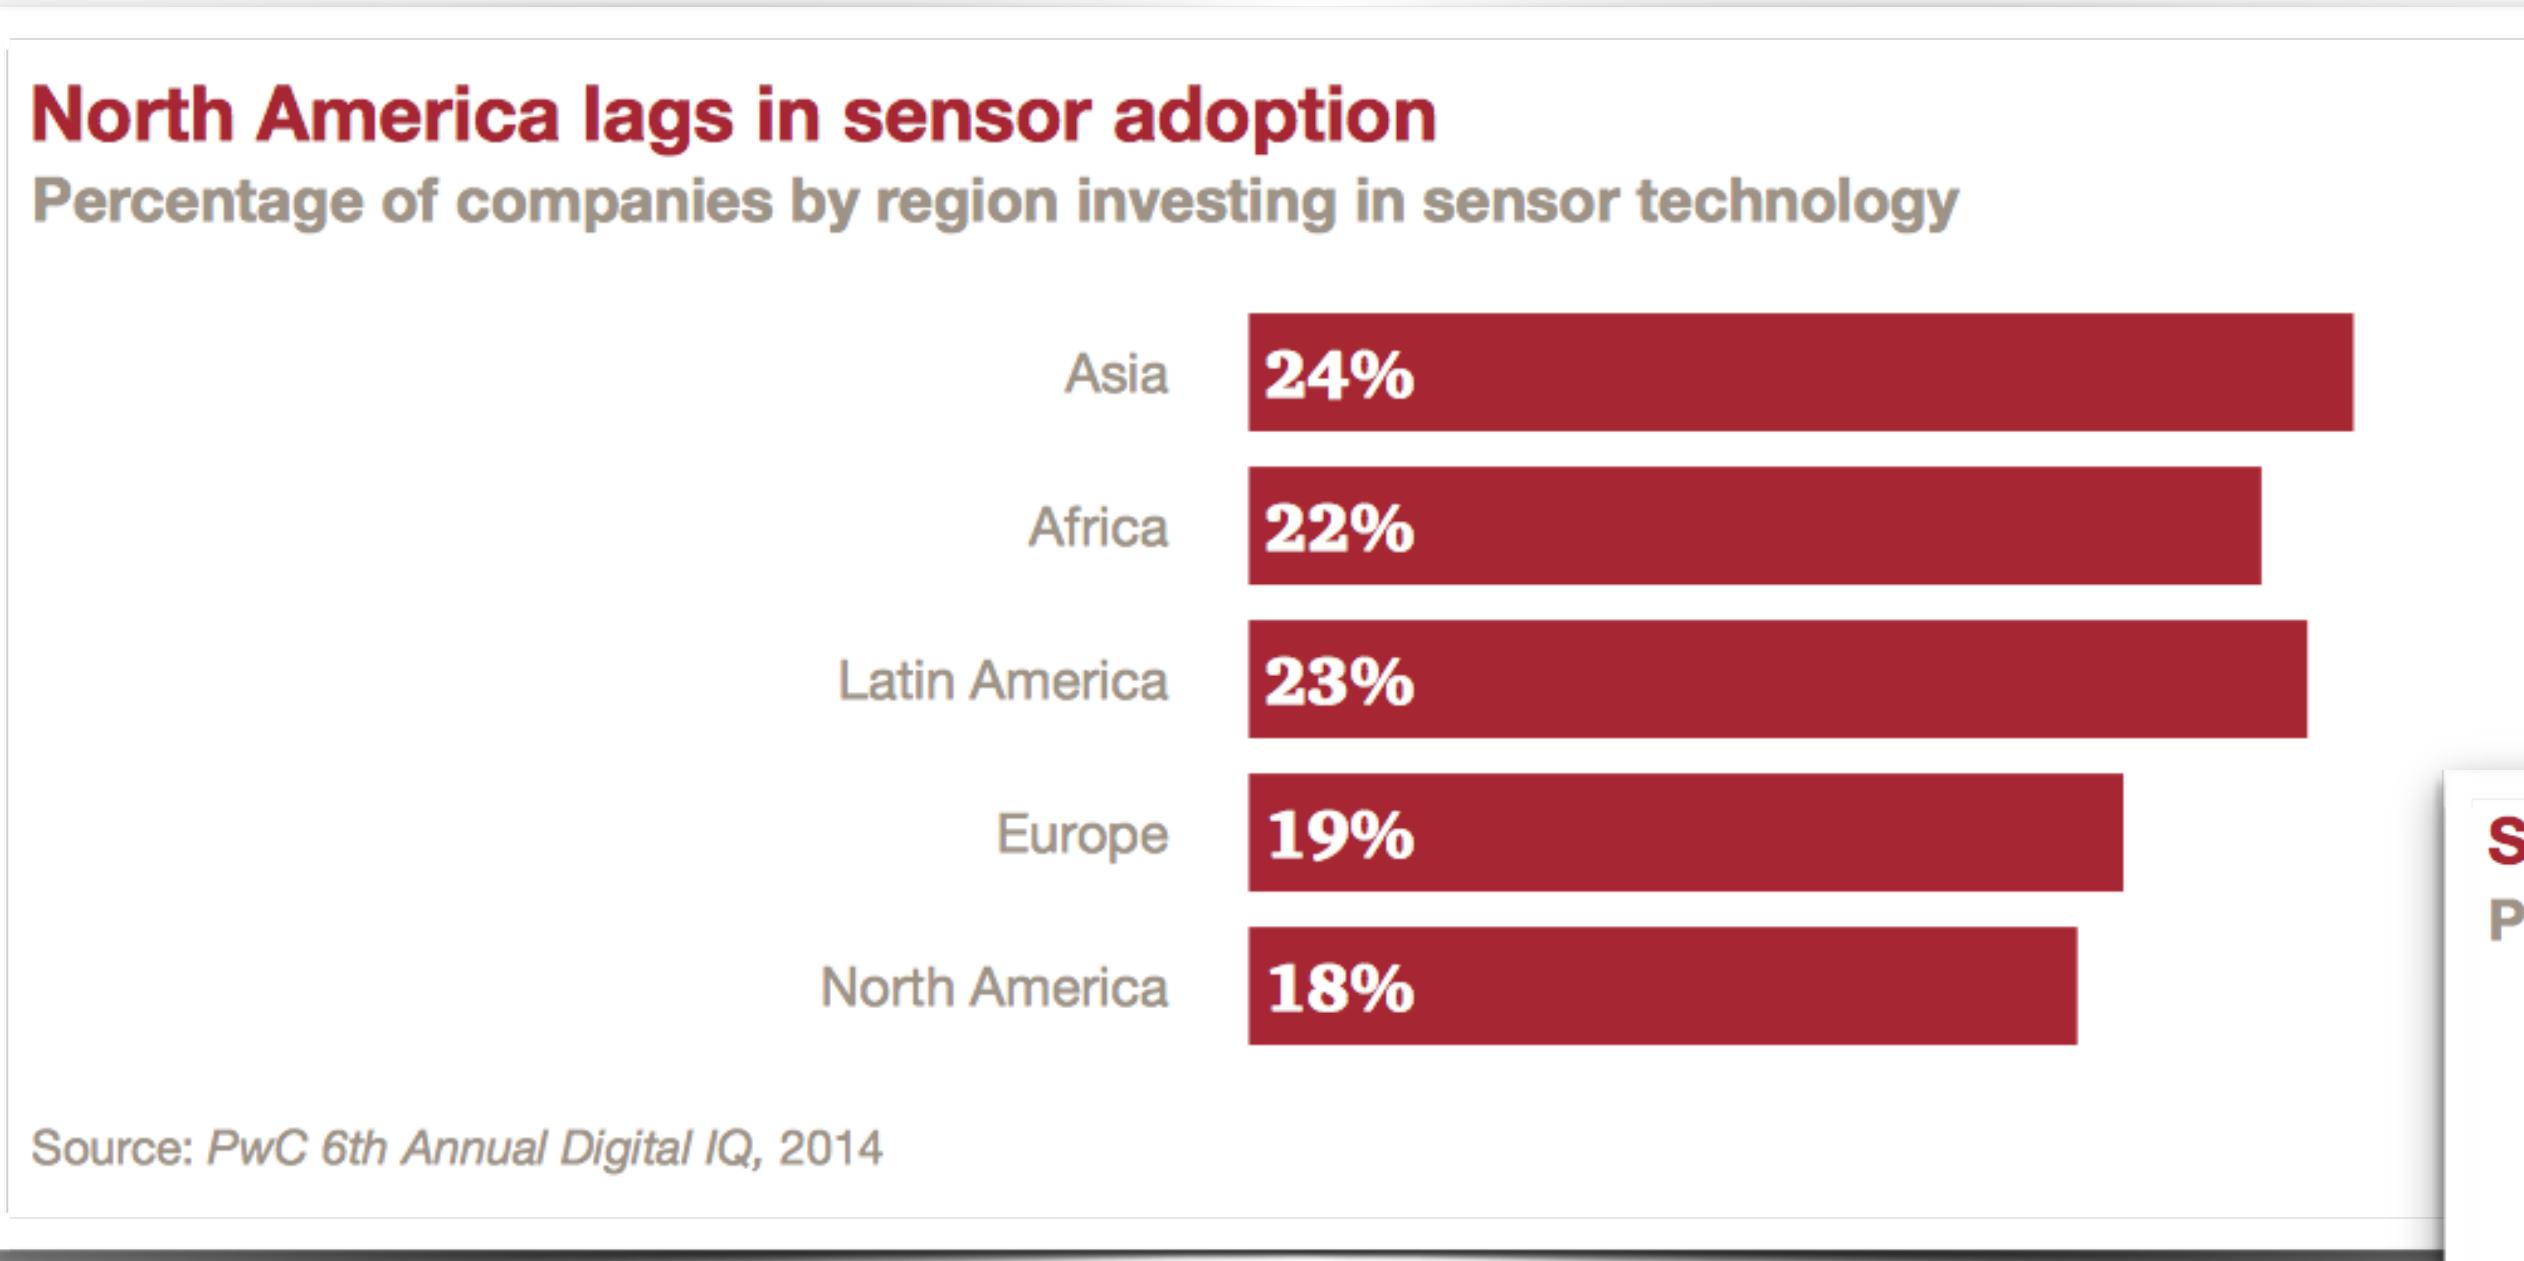

Smart Buildings

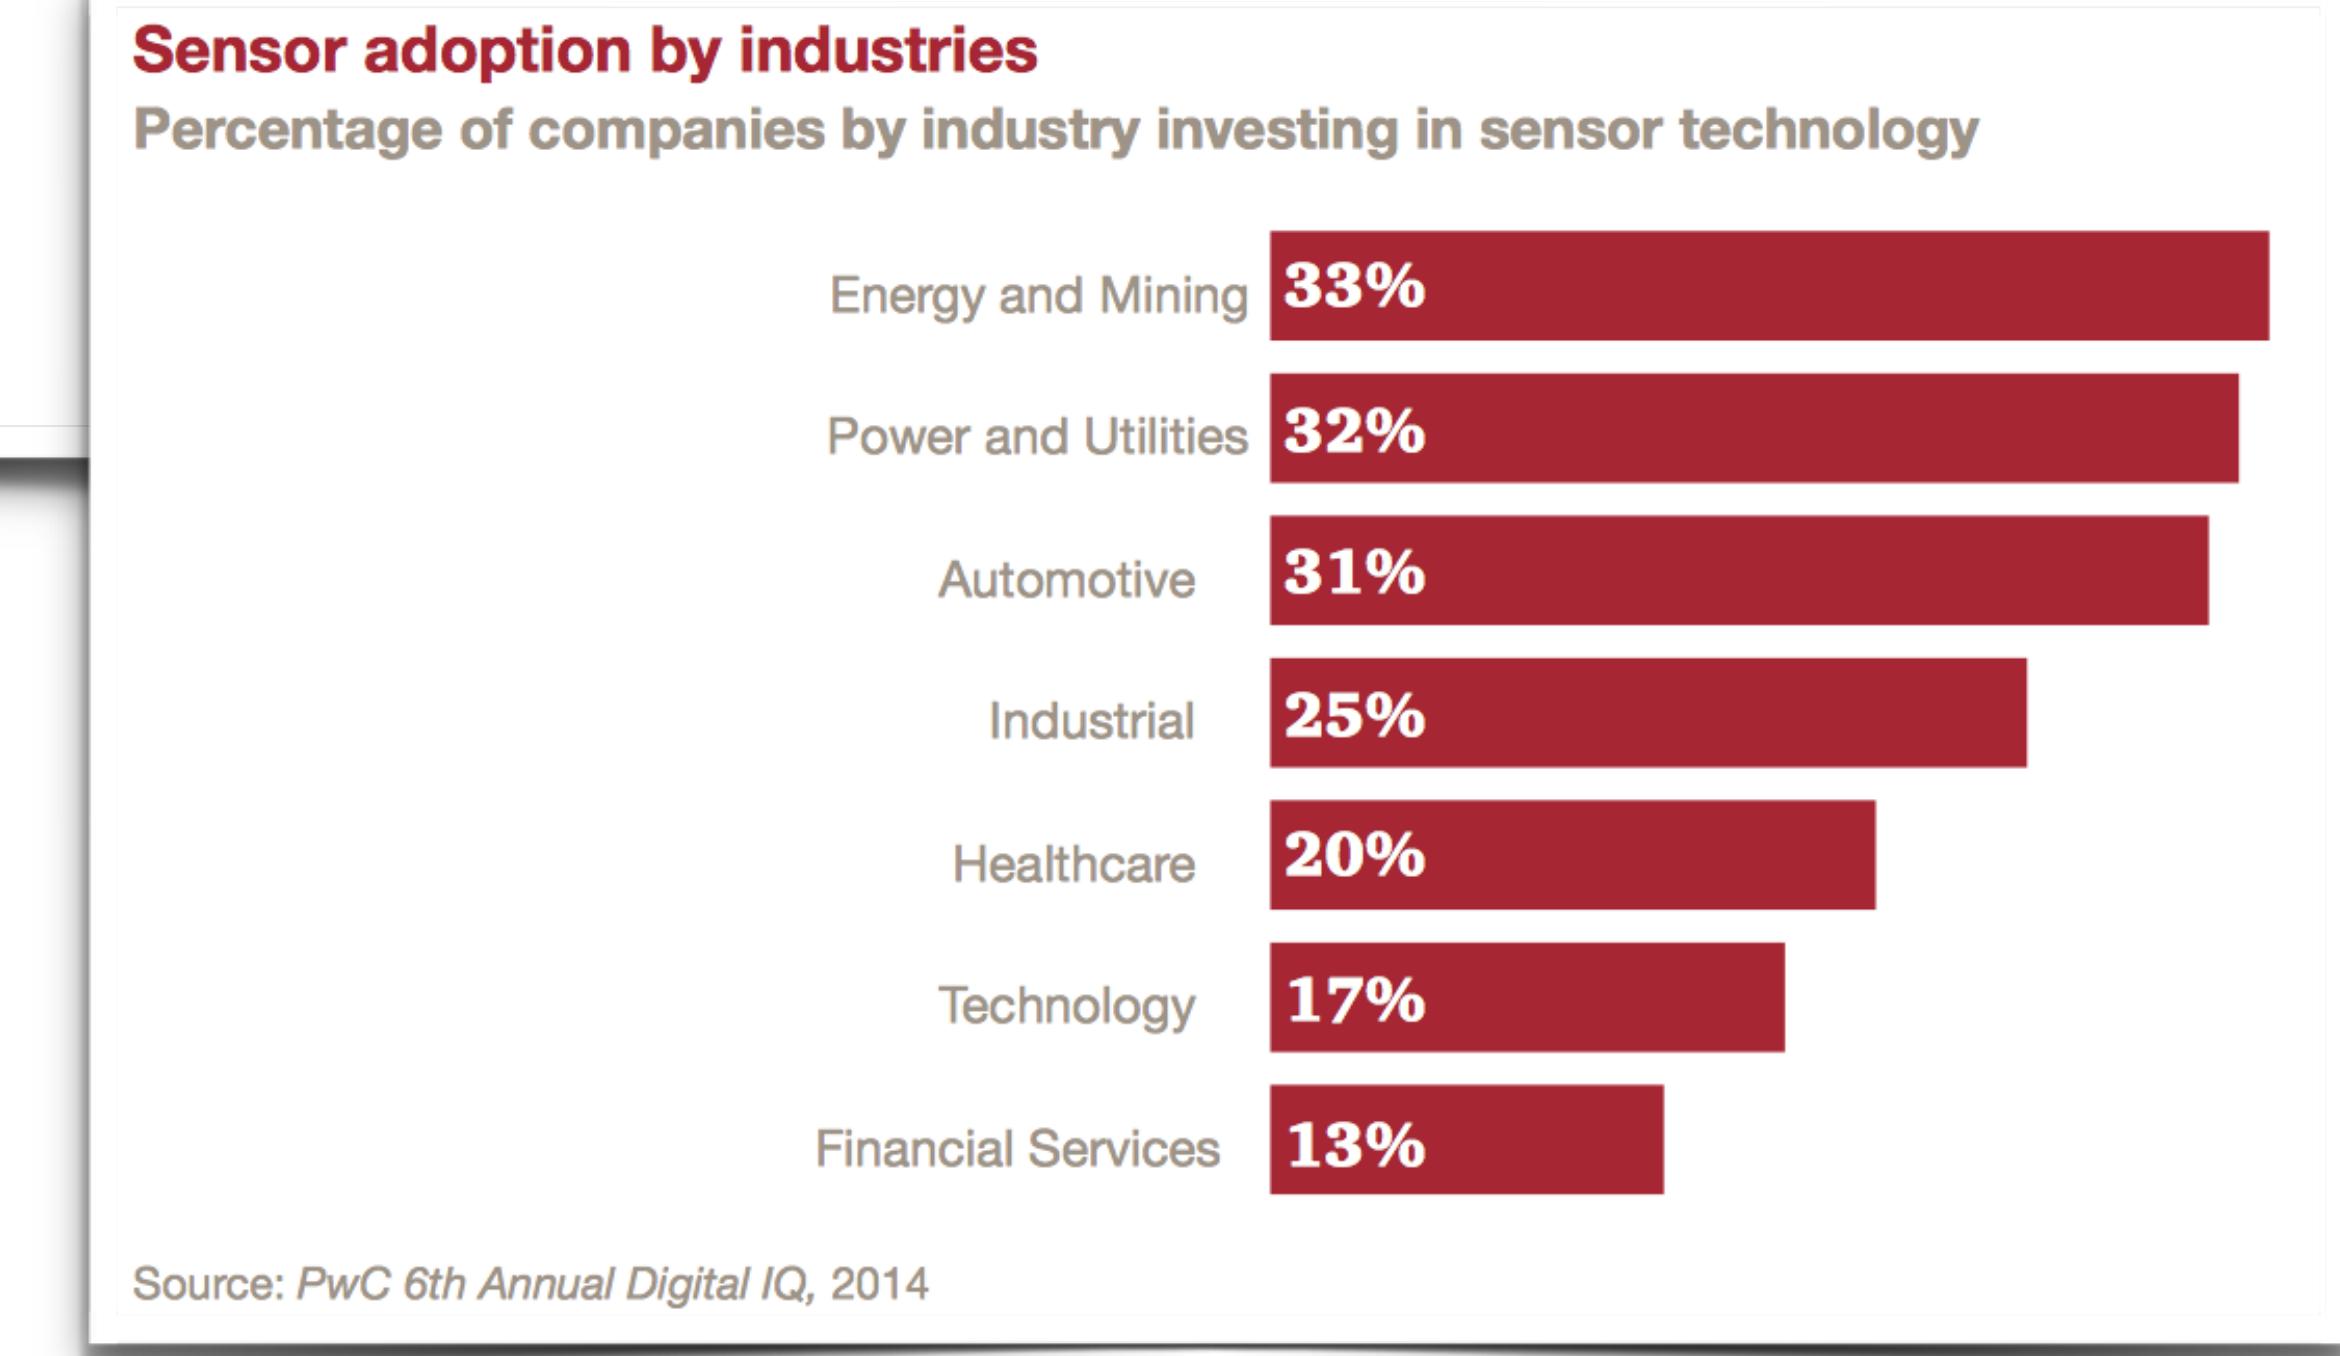

Connected products

# Leading Industries - IT meets OT

Energy, Mining, Utilities, Automotive & Farming treiben die Verschmelzung von Informatik und Operational Technology voran

Asien hat die Nase vorn

# Digital Rio Tinto

# Industrie 1925

US Library of Congress;  
Photos taken between  
1910 and 1925
